Career Objective

I feel pride in building innovative web applications from scratch. As a Front End Web Developer this allows me to design and implement websites that go beyond just looking beautiful and provide real value.

Skills

- Expertise: WordPress, HTML, CSS, Bootstrap,Tailwind,JavaScript,ReactJS etc.
- Comfortable: Node.js, MongoDB, Firebase, Express.js.
- Tools: Figma, GitHub, Netlify, VS Code, Chrome Dev Tool.

Projects

Online Courses : Live site (May 2022 - jun 2022) ● This is a full stack web project and this is a responsive website.
- You can enroll courses, review and will give orders etc.
- There also has an authentication and authorization, email verification system.

Online Quiz App : Live site (Apr 2022 - May 2022)
- This is also a full stack web project and That's I have created a few days Ago.
- You can select the category to take quizzes and have much more features. ● There also has an authentication system and email verification system.

TechMax: Live site (Full-Stack) (Mar 2022 - Apr 2022)
- project and this is a responsive website.
- User can buy products and add to cart also
- User can review any products
